

# Summer Olympics

## Total number of gold medals at Summer Olympics

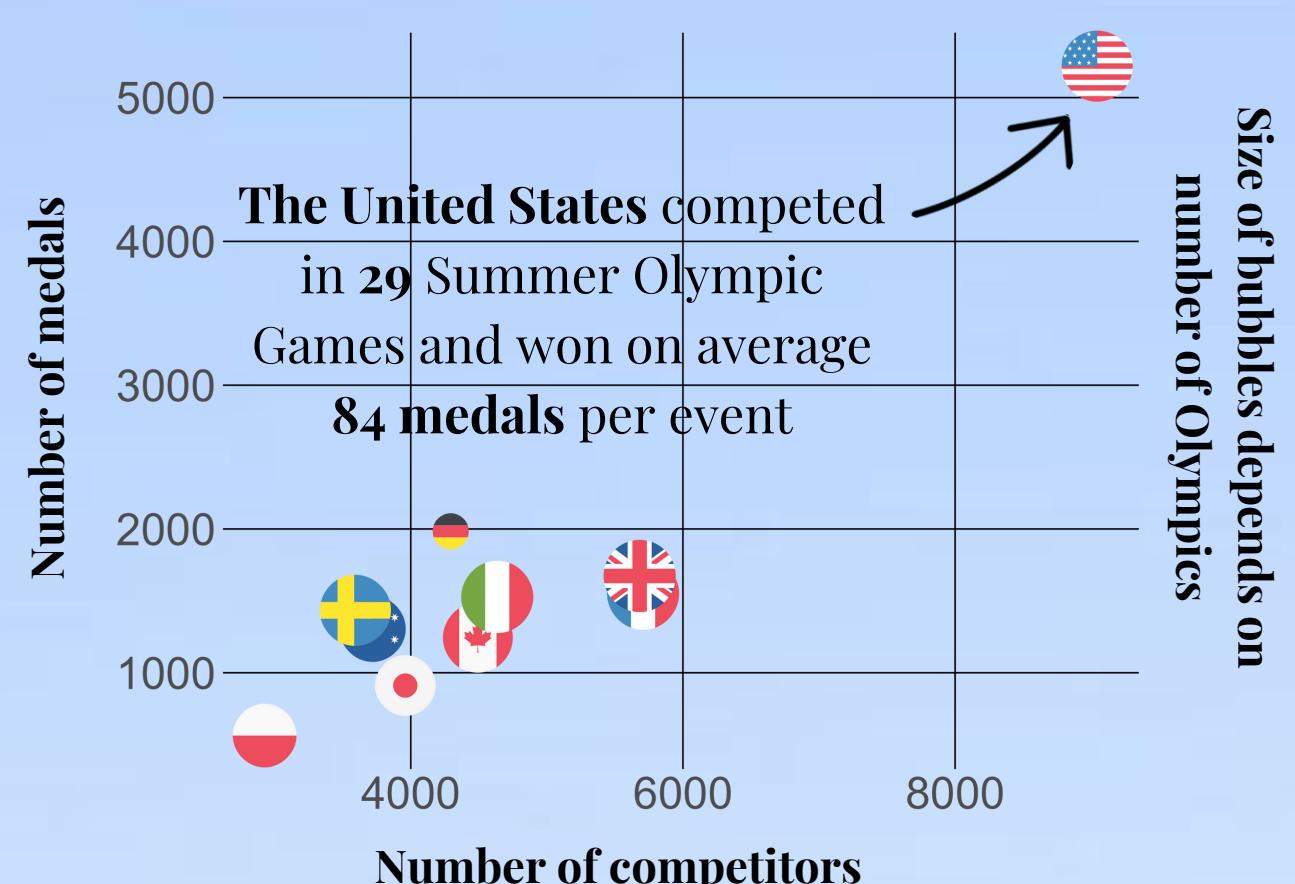

The United States is definitively a leader in gold medals at the Summer Olympics, as they won over 2000 gold medals. The next two teams are the Soviet Union which won about 1200 gold medals and Germany with 1000. One team that deserves special recognition is Hungary which got over 400 gold medals.

## Most successful Olympians in history

The cost of hosting the Olympic Games depends, among others, on the current state of the infrastructure, sports facilities, etc. On the chart, we can see a comparison of the costs of hosting the Olympic Games in billions of dollars depending on the host city of the Olympics. As we can see London wins in this ranking and the cost of hosting the Olympics was around **15 billion dollars**. The city which spent the least money is Los Angeles and the cost was **719 million dollars**. And the first modern Olympic Games in Athens in 1896 costed **3,7 million Greek Drachmas** which is equivalent to around **174 million dollars** right now.

## Most successful Countries in history

Over the years we have witnessed plenty of incredible sportmen and sportswomen and some of them went down in the pages of history. Here we have **top 10** of them. Of course, at number 1 spot there is irreplaceable **Michael Phelps**. The things that is curious is that **half** of these athletes are **gymnasts**, the rest of them are **swimmers** (3), **kayaker** (1) and **fencer** (1).

## Comparison of the cost of the Olympics in 1972-2016
